A Brief Historical Sketch of FAY & SCOTT

IN 1881, a partnership between Norman H. Fay and Walter Scott was formed for the manufacture of wood turning lathes, later extending to machine tools and special machinery, leasing the building now occupied by The Enterprise Creamery Co.

In 1884, the equipment was moved into a building located on the site of the present plant, employing:—

N. H. FAY, *General Manager.*

WALTER SCOTT, *Superintendent.*

DEXTER MCKECHNIE, *Pattern Maker.*

WILLIAM KNOX, *Foreman Molder.*

A. H. FASSETT, *Machinist.*

W. S. GOULD, *Machinist.*

W. E. HILL, *Machinist.*

C. H. BROWN, *Machinist.*

G. SAFFORD, *Machinist.*

E. MOORE, *Machinist.*

*HENRY MARSH, *Blacksmith.*

* Deceased.

For information it may be noted that A. H. Fassett was the first employee of Fay & Scott.

The average weekly payroll at this time was approximately one hundred and fifty dollars.

The business increased steadily, so that in 1890 it was necessary to extend the machine shop forty feet.

The floor space at this time did not exceed 10,000 sq. feet.

Extensions were made when necessary in 1891-'92-'93-1902-'06-'11-'13-'15-'17 and 1918 until now a floor space of two acres is utilized, employing rising three hundred and fifty with a weekly payroll of eighty-five hundred dollars.

For the welfare of their employees, Fay & Scott in 1914 ventured to construct three cottage houses, and building each succeeding year until the present, thru construction

and purchase, thirty houses are rented to their employees only, including the Fay-Scott Inn, furnishing a home for about fifty men.

The Inn is successfully managed by our genial foreman, Joseph Burnard.

The present prosperous condition of the company is due to the untiring effort of its President, Mr. N. H. Fay, and the hearty co-operation of the officers and employees. From the pioneer organization of 1881 has developed the following:—
